

Super Hero Felt Bracelet

Materials Needed:

- 2 pieces of felt (any color)
- Scissors
- Elmer's Glue
- Black marker
- Hole Punch
- Yarn

Directions:

- First, cut one piece of felt into an arm band that is about 3-4 inches wide, 7-8 inches long.
- Print out [this star](#) before the next step if you need help with tracing. Use the black marker to draw a star on the 2nd piece of felt and cut out the star. You can also cut out two small pieces that are about 2 inches long and a half inch wide.
- Glue the star and the two pieces (however combination you'd like it to be) on the large piece.
- Hole punch the ends of the larger piece, the one that is your arm band. Put yarn through the holes and tie the ends together to close the bracelet.
